We are proud to share GreenLight Fund’s 2021-22 Impact Report, highlighting the work, results and meaningful stories of change of GreenLight’s 44 portfolio organizations across our 11 sites. This past year alone (July 2021 - June 2022) our portfolio organizations reached more than 560,000 children, youth and families, the vast majority of whom are Black and Brown residents experiencing poverty.

Seven new organizations were selected this past year as we deepen our engagement with communities and prioritize centering equity, particularly racial equity, in each of our sites. Responding to barriers to economic prosperity elevated locally, these organizations address a diverse set of focus areas including workforce development, financial security, family childcare, housing, youth mental health and community safety, opening opportunities for those most impacted.

Emerging from the pandemic, the data show that many of the organizations in our portfolio are stronger, learning from the shifts that were necessary in the early days of COVID. Some of the changes have become integral to their models resulting in expanded and deepened impact.

GreenLight too has been learning. With our measurement systems evolving, we are capturing and learning from more outcome, output, demographic and trend data. This year we established a formal Learning function, strengthening our ability to surface and share critical learnings from across our growing network. The goals of this strategic, intentional approach are to deepen and expand impact in all of our communities and share what we’re learning more broadly, including with you who have invested in our work in a variety of essential ways.

This work would not be possible without so many who have joined us to help make sustained economic prosperity a reality for all, particularly those who face systemic barriers to opportunity.

Deepest thanks to you, our partners, investors, Selection Advisory Councils and community members who make it possible to work towards community-driven change.

Emerging from the pandemic, the organizations in our portfolio are stronger, learning from the shifts that were necessary in the early days of COVID.
Programs addressing social challenges in innovative and effective ways exist, but they may not be found close to home. GreenLight searches the country for proven programs to address local unmet needs and invests in their expansion in partnership with our communities.

OUR APPROACH

The GreenLight Method is our community-focused approach to identify proven social innovations that address the needs that matter most to residents facing systemic barriers to economic opportunity. In each of our sites throughout the process, we engage deeply across all sectors of the local community, partnering with a diverse Selection Advisory Council (SAC) and listening directly to those with lived experiences and community knowledge proximate to the priority needs we look to address.

DISCOVER
Through conversations across multiple sectors, local data reports and listening to many voices, the local site team and the SAC look deeply at focus areas driven by racial and economic disparities in the region and identify community needs not yet being fully addressed where an innovative program could make a significant difference.

SCOUT
The team searches the country and deeply vets proven, effective programs best suited to tackle those needs locally.

SELECT
In partnership with the SAC, an innovative program with significant, measurable results and the best local fit is selected.

INVEST
GreenLight helps the selected organization reach and sustain impact locally with multi-year unrestricted funding, on-the-ground support and strategic partnership development.

MEASURE
At the outset with each portfolio organization, GreenLight identifies and sets annual targets for the programmatic and financial indicators to be measured. Each year, portfolio organizations report on those measures, a sampling of which you will find in this report.
DEEPENING COMMUNITY ENGAGEMENT

As GreenLight implements the GreenLight Method in partnership with Selection Advisory Councils (SAC), site teams regularly engage a broad cross section of the community throughout the process. Community members, particularly people who have personal experience with the challenges GreenLight is working to address, play a critical role in helping us understand local unmet needs and meaningfully inform the proven programs we select for investment in that community.

**DISCOVER**

During the Discovery phase, interviews and focus groups help to surface priority focus areas.

“I see the psychological effects of social distancing, my kids miss their friends and are losing their enthusiasm for school.”
- ATLANTA PARENT

“I made $336 a week, that is nothing. My rent it’s $1,100, that took my entire checks.”
- BALTIMORE RESIDENT

“Transitioning off public benefits should be a gradual “ramp” towards economic stability, not a drastic cliff.”
- CINCINNATI RESIDENT

**SCOUT**

Community members advise on selecting the model with the best local fit during Scout and Select phases.

“When you talk about minority business owners… they didn’t get the same opportunities … they don’t have that generational experience of wealth they can lean on.”
- BALTIMORE RESIDENT

“I feel this is a great opportunity for me to give back to the community and make a meaningful impact in my own little way.”
- BOSTON FAMILY PARTNER AND PER SCHOLAS GRADUATE

“We used to not be in the room when decisions were made. To be there was an epic moment – to know that people really care what we have to say.”
- KANSAS CITY COMMUNITY CONSULTANT

**CENTERING COMMUNITY VOICE**

GreenLight learns from community members and from each other as we improve our approach and center racial equity throughout the GreenLight Method.

“Hearing community members’ aspirations helped inform our focus areas and gave us a deeper understanding about what didn’t work and the opportunities for change.”
- SIMONE HARDEMAN-JONES
  GreenLight Twin Cities Executive Director

“[Community members] helped us narrow down the key local issues and put into words their experiences.”
- TISH JOHNSON-JONES, JD
  GreenLight Greater Newark Executive Director

“Community members have existing power. Our community engagement work is about helping to activate it.”
- MELISSA LUNA
  GreenLight Boston Senior Executive Director
