INVESTING IN COMMUNITY-DRIVEN CHANGE

We are proud to share GreenLight Fund’s 2021-22 Impact Report, highlighting the work, results and meaningful stories of change of GreenLight’s 44 portfolio organizations across our 11 sites. This past year alone (July 2021 - June 2022) our portfolio organizations reached more than 560,000 children, youth and families, the vast majority of whom are Black and Brown residents experiencing poverty.

Seven new organizations were selected this past year as we deepen our engagement with communities and prioritize centering equity, particularly racial equity, in each of our sites. Responding to barriers to economic prosperity elevated locally, these organizations address a diverse set of focus areas including workforce development, financial security, family childcare, housing, youth mental health and community safety, opening opportunities for those most impacted.

Emerging from the pandemic, the data show that many of the organizations in our portfolio are stronger, learning from the shifts that were necessary in the early days of COVID. Some of the changes have become integral to their models resulting in expanded and deepened impact.

GreenLight too has been learning. With our measurement systems evolving, we are capturing and learning from more outcome, output, demographic and trend data. This year we established a formal Learning function, strengthening our ability to surface and share critical learnings from across our growing network. The goals of this strategic, intentional approach are to deepen and expand impact in all of our communities and share what we’re learning more broadly, including with you who have invested in our work in a variety of essential ways.

This work would not be possible without so many who have joined us to help make sustained economic prosperity a reality for all, particularly those who face systemic barriers to opportunity.

Deepest thanks to you, our partners, investors, Selection Advisory Councils and community members who make it possible to work towards community-driven change.

Emerging from the pandemic, the organizations in our portfolio are stronger, learning from the shifts that were necessary in the early days of COVID.

Programs addressing social challenges in innovative and effective ways exist, but they may not be found close to home. GreenLight searches the country for proven programs to address local unmet needs and invests in their expansion in partnership with our communities.
OUR APPROACH

The GreenLight Method is our community-focused approach to identify proven social innovations that address the needs that matter most to residents facing systemic barriers to economic opportunity. In each of our sites throughout the process, we engage deeply across all sectors of the local community, partnering with a diverse Selection Advisory Council (SAC) and listening directly to those with lived experiences and community knowledge proximate to the priority needs we look to address.

DISCOVER
Through conversations across multiple sectors, local data reports and listening to many voices, the local site team and the SAC look deeply at focus areas driven by racial and economic disparities in the region and identify community needs not yet being fully addressed where an innovative program could make a significant difference.

SCOUT
The team searches the country and deeply vets proven, effective programs best suited to tackle those needs locally.

SELECT
In partnership with the SAC, an innovative program with significant, measurable results and the best local fit is selected.

INVEST
GreenLight helps the selected organization reach and sustain impact locally with multi-year unrestricted funding, on-the-ground support and strategic partnership development.

MEASURE
At the outset with each portfolio organization, GreenLight identifies and sets annual targets for the programmatic and financial indicators to be measured. Each year, portfolio organizations report on those measures, a sampling of which you will find in this report.
DEEPENING COMMUNITY ENGAGEMENT

As GreenLight implements the GreenLight Method in partnership with Selection Advisory Councils (SAC), site teams regularly engage a broad cross section of the community throughout the process. Community members, particularly people who have personal experience with the challenges GreenLight is working to address, play a critical role in helping us understand local unmet needs and meaningfully inform the proven programs we select for investment in that community.

Discover
During the Discovery phase, interviews and focus groups help to surface priority focus areas.

Centering Community Voice

GreenLight learns from community members and from each other as we improve our approach and center racial equity throughout the GreenLight Method.
NATIONALLY BY THE NUMBERS

Since 2004, GreenLight has grown to 11 sites, on pace to add a site each year, and this year alone reached more than half a million individuals and families. The tremendous impact of 44 portfolio organizations is bolstered by the more than $206M of additional non-GreenLight funding they’ve received to date.

We are grateful to community residents, leaders and experts who make our work possible and the more than 550 individuals who, as Selection Advisory Council and local board members, devote time, energy and expertise to help embed portfolio organizations in our communities and make them stronger.

LEVERAGE ON GREENLIGHT’S INVESTMENT

GreenLight Fund’s work in communities and dollars invested locally in portfolio organizations have leveraged an additional $206M to date, helping portfolio organizations open opportunities for a growing number of children and families.

Nearly 50% of 2021 leveraged funding comes from public and fee-for-service revenue sources.
OUR INVESTMENTS

GreenLight’s investments address unmet needs often stemming from longstanding racial inequities identified by each community each year. Our impact increases exponentially as our growing portfolio of innovative programs make measurable progress each year, all across the GreenLight network.

**MY CROWN**

*by Justis Porter*

WOW Boston participant

Down below somewhere in me is a little girl who was once too afraid to speak up

That little girl has stayed there for years, witnessing me learn lessons

Lessons that helped me know my worth, and made sure that I knew it so well and could never forget it

The lessons that made that little girl who was too afraid to say “no”, into a young woman who is not afraid to roar

For I have learned my boundaries, and am not afraid to stand up for them

While my crown was forged out of lessons that weren’t so pleasant to learn

It was also forged out of the love and care that my friends, family, and mentors have shown me

Their time, energy, and effort were spent to help me become who I was meant to be

“Who is that?” you may ask

My answer is “A strong and dedicated young woman who is not afraid to shine”.

And thankfully, I now have a crown that I can call mine.

ALTERNATIVES TO VIOLENCE
LAUNCH 2021
Alternatives to Violence is a program based on training provided by Cure Violence Global, an evidence-based violence reduction model. The program reduces violence by the same three components used in public health to reverse an epidemic: 1) interrupt disease transmission, 2) reduce the risk of the highest at risk, 3) change community norms.

NEED IDENTIFIED
Local police reported 122 homicides in 2020, making it the deadliest year since 1993.

KEY RESULT
Far exceeding the goals for community members reached in the first year, the county saw a 40% reduction in homicides.

FOSTERING EARLY LEARNING: PARENTCHILD+

Coming from a single-parent home with three siblings, Austin’s mother was concerned he was falling through the cracks in his learning and development. Austin displayed limited vocabulary and showed no interest in learning. Austin’s mother changed her work schedule to focus on Austin, but saw little improvement. After being referred to ParentChild+ at INLIVIAN by her sister, Austin’s mother entered the program and began working with an Early Learning Specialist (ELS).

Within four months, Austin’s ELS reports an increase in his vocabulary and an improvement in pronunciation. He has learned all of his primary colors, the entire alphabet, and can count from 1 to 11.
ALL OUR KIN

LAUNCH 2022
All Our Kin trains, supports, and sustains family child care educators to ensure that children and families have the foundation they need to succeed in school and in life.

NEED IDENTIFIED
Access to child care is critical for families, especially women, to work, but Kansas City has lost nearly 5,000 childcare spots in the last two years.

KEY RESULT
All Our Kin will reach 200 family child care educators and 1,600 young children by 2026.

STRENGTHENING FAMILY CHILD CARE: ALL OUR KIN

Family child care educators—those who run child care programs in their homes—play an important role in providing care to infants and toddlers, but often operate on razor-thin margins and lack meaningful resources. All Our Kin, in collaboration with a local partner, will create a staffed family child care network with paid, specialized professionals providing peer support, coaching, training and professional development, business support, and help obtaining licensure.

“[All Our Kin] is not guessing about what in-home providers need and what providers need to thrive. They can share their hands-on experience of working with providers with us.” - Shuneece Smith, Community Consultant and Family Child Care Provider

YOUTH GUIDANCE - BAM

LAUNCH 2020
Becoming A Man (BAM) is a school-based program that supports young men, particularly those of color in grades 7-12, through group sessions with their peers and the guidance of a trauma informed BAM counselor. Counselors help young men develop social cognitive skills that deter criminal involvement and increase school engagement.

NEED IDENTIFIED
Boys and young men of color face disproportionate challenges in reaching their full potential as compared to their white peers.

KEY RESULT
BAM youth improved their scores on all dimensions of social-emotional learning including critical thinking, empathy, academic motivation, relationships with peers, and emotional control.

LET EVERYONE ADVANCE WITH DIGNITY (LEAD)

LAUNCH 2022

LEAD, a project of the Law Enforcement Assisted Diversion program, is a public health approach to community safety that diverts individuals cycling in and out of the legal system into a long-term case management model of care.

Utilizing a harm reduction platform to improve outcomes, LEAD is held by community utilizing its collaborative structure to bring a cross section of community leaders, neighborhood residents and business owners together in partnership with case managers to decrease recidivism and improve stability for residents facing behavioral health challenges often criminalized.

NEED IDENTIFIED
Community safety through fewer unnecessary police interactions.

KEY RESULT
Anticipate over 50 participants in the first year growing to 200+ in the Twin Cities over the next 4 years, this program will lower recidivism by 50%, increase social support by 35% and improve relationships with residents, law enforcement and business owners.

DEEP COMMUNITY PARTNERSHIP

LEAD Minneapolis is starting on the Lake Street Corridor, a longstanding hub of culture and entrepreneurship and an area that has been plagued with a lack of investment and criminal activity driven by the effects of systemic racism. In our efforts to reshape public safety, we heard loud and clear that now is the time to de-center law enforcement and center the community. LEAD Minneapolis will give community members the opportunity to have a direct say in the creation of a safer community.

Consistent with the national LEAD model, rather than being “owned” by any one stakeholder or agency, LEAD Minneapolis is implemented as a collective governance model in partnership with the Minneapolis City Attorney’s Office, Pillsbury United Communities, and the Policy Coordinating Group (PCG). The multi-agency PCG provides collective management and joint decision-making while ensuring LEAD Minneapolis has adequate resources to be impactful in our community in connection with our coalition of community partners and funders.

“Like Minneapolis, many communities around the country are seeking ways to improve public safety. LEAD provides us with the opportunity to operate outside of the court system and to engage individuals within the community in a unique and different way.”

JIM ROWADER,
Former City Attorney, City of Minneapolis
COMPLETING THE FIRST SELECTION

Since 2021, GreenLight Baltimore has prioritized ensuring authenticity, innovation, and storytelling in our work. Moving through the GreenLight Method, we held Meaningful Conversations - candid discussions and one-on-ones with community stakeholders across Baltimore to understand the needs of community members. After assessing over 100 organizations, we presented four proven direct service programs to the Selection Advisory Council within our two focus areas: Neighborhood Investment and Asset Poverty. We expect to announce our first investment selection by the end of the year.

NEIGHBORHOOD INVESTMENT

Although Baltimore is called the ‘city of neighborhoods,’ the visibly stark racial and wealth contrasts paint a more complex story. As investment flowed into white areas, it left Black communities behind.

In Baltimore City, neighborhoods with less than 50% of Black residents received 3.3x the investment than neighborhoods with higher concentrations of Black residents. High-poverty neighborhoods receive almost 50% less mission-lending investment dollars than low-poverty neighborhoods.

“I think another part of it is that the programs that are available point you into a category. Everyone’s got a different story. It’s not always so cut and dry.”

– MEANINGFUL CONVERSATIONS PARTICIPANT

ASSET POVERTY

The concept of asset poverty serves to broaden our definition of financial instability to include not only what a family earns, but also what it saves and owns. Rates of asset poverty are typically far higher than income poverty, demonstrating the pervasiveness of the issue.

In Baltimore City, 55% of households don’t have enough savings to live above the poverty line for three months.

“You’re not eligible for this, you’re not eligible for...’ I wasn’t even eligible for food stamps and I was laid off. I made $336 a week, that is nothing, my rent it’s $1,100, that took my entire checks.”

– MEANINGFUL CONVERSATIONS PARTICIPANT
IN PARTNERSHIP WITH COMMUNITY

After launching in January 2022, GreenLight Greater Newark facilitated a GreenLight Community Conversations Tour. Through 200 surveys, 100 conversations, eight community events, and ten focus groups, GreenLight Greater Newark listened to hundreds of diverse perspectives from nonprofit leaders, funders, public sector leaders, community advocates and residents, including parents and young adults, to understand priority, unmet needs. Partnering with the Selection Advisory Council, the team narrowed the focus areas to Workforce Development and Resource Access and Navigation and will now search the country for evidence-based programs with the best local fit to close the identified gaps. The first selection investment is targeted for the fall of 2023.

WORKFORCE DEVELOPMENT

Over 50% see need for workforce development and upskilling for career mobility.

15.5% of Newarkers have attained a bachelor's degree or higher.

Newark median household income is $37,476

$50,000 less than NJ's median income.

RESOURCE ACCESS & NAVIGATION

80% of community members expressed interest in a central location to gather and disseminate information and resources.

There are 1000+ nonprofits and community-based organizations in Newark.

58% of families in poverty do not receive NJ SNAP benefits (food insecurity support).

HOUSING

50% indicated need for housing stability programs.

Approximately 20,000 people in Newark are evicted annually.

Only 22% of households are homeowners.
